OBJECTIVE

Seeking a challenging Software Engineer position where I can leverage my skills and experiences to contribute to the company's success while advancing my professional growth.

WORK EXPERIENCE

Yondu Inc.

Software Engineer

APRIL 05, 2024 - PRESENT

- Develop the Front End side of Fundspace application using React.
- Participate on solving bugs in petpal application.
- Undergo training in NextJS and NestJS by developing a landing page for Front End and developing an authorization system with mobile and email verification in Back End side.

FinXP Ltd.

Full Stack Developer

AUGUST 2022 - APRIL 2024

- Develop fintech and portal admin web applications, encompassing both front-end and back-end development.
- Add features to existing applications based on the requirements from business analyst.
- Fix technical bugs and refactor codes with accordance to company coding standard with the help of SonarCube.
- Adhere to development requirements such as writing unit tests, ensuring that codes are always passing CI/CD test, and producing reusable function for other feature use.

Unexus Inc.

Part time Software Engineer

SEPTEMBER 2023 - JANUARY 2024

- Develop healthcare application and design the database from ground up.
- Resolve any bugs that arise in existing applications.
- Collaborate with QA and UI/UX to enhance user-friendliness of applications.

Transcriptionist

FEBRUARY 2021 - JANUARY 2022

TaskUs

Accurately transcribe alumni interviews for publication on university websites.

Contractual Survey Interviewer

Dynata Inc.

JULY 2020 - NOVEMBER 2020

Contact list of respondents for a phone survey to gather statistical records related to consumer preferences of company products.
